

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN FRANCISCO BAY REGION

CITY OF LIVERMORE

ORDER NO. 77-103

ORDER GRANTING ADDITIONAL DISCHARGES TO THE CITY'S
SEWER SYSTEM PURSUANT TO CEASE AND DESIST ORDER
NO. 76-132 AS AMENDED BY CEASE AND DESIST ORDER
NO. 77-23

I. FINDINGS

The California Regional Water Quality Control Board, San Francisco Bay Region, finds that:

- A. On November 1, 1974, this Board adopted Order No. 74-133, an NPDES Permit, prescribing waste discharge requirements for the discharge of the City of Livermore.
- B. On December 21, 1976, this Board adopted Order No. 76-132, a cease and desist order, which prohibited additional discharges to the City's sewer system.
- C. Order No. 76-132 provided for partial removal of the prohibition and allowance of additional discharges to the sewer system upon ☒ forthwith achievement and completion of certain specified tasks or additional tasks not specified in the orders and which represent a measure of substantial progress towards the elimination of actual and threatened violations of requirements.
- D. The City through its membership on the Livermore-Amador Valley Water Management Agency has stated its intent to issue revenue bonds as a primary means of financing the facilities necessary to comply with Order No. 74-133 (NPDES Permit) and Cease and Desist Order Order Nos. 76-132 and 77-23. In addition, the City has stated its intent to implement a pay-as-you-go financing method. These actions represent a measure of substantial progress towards the elimination of actual and threatened violations of the NPDES Permit.
- E. Compliance with other limitations and time schedule of Order Nos. 74-133 and 76-132 has not deteriorated.

F. On July 19, 1977, the California Regional Water Quality Control Board Board, San Francisco Bay Region, after due notice, held a public hearing under provisions of Water Code Section 13301 regarding the discharge of waste and pollutants by the City of Livermore.

II. IT IS HEREBY ORDERED THAT the prohibition of additional discharges to the sewer system as provided in Order No. 76-132 is partially removed and the City of Livermore is allowed additional discharges to the sewer system sufficient to serve those proposed projects for which the City has received and processed all documents required by the City for issuance of a building permit prior to July 19, 1977.

I, Fred H. Dierker, Executive Officer, do hereby certify that the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, San Francisco Bay Region, on July 19, 1977.

FRED H. DIERKER
Executive Officer
